

Photography Preparation – Final Assessment Exercise.

Recall:

You have learned how to add a border, how to adjust an over- or under-exposed, how to straighten an image and how to resize an image in preparation for Pictures To Exe.

- Refer to Lesson 10 – creating a digital frame.
- Refer to Lesson 8 and Lesson 9 – fixing over- or under- exposed photographs.
- Refer to Lesson 7 - straightening an image.
- Refer to Lesson 12 - resizing images in preparation for Pictures To Exe.

Final Photography Preparation Exercise:

- You have now gained all the necessary skills to help you edit your own images. Put all these skills into action and prepare ten images of your own that you can use when creating your first slide show.
- Save the finished JPEGs into your folder called 'PTE > PTEproject2 > PTEimage's'.

Note: To enable you to carry out the practice exercises in the unit called 'Pictures To Exe' you will be able to download a folder of images.

Remember you can use the Forum to interact with other students undertaking this course.
