

5. Adding your images to the Slide List in Pictures To Exe.

At the end of this lesson you will be able to execute the procedure for locating and adding your images to the **Slide List** that will be used in the creation of your slide show presentation by highlighting the image from the file panel and clicking the **Add** button. The **Slide List** is the area in **the Main Window** where images used in the slide show are placed.

Step One:

Move to the **directory tree of files** and locate the folder containing your images.

Click on the folder called “**PTEimages**” and all the images stored in this folder will be displayed in the **file panel**.

The directory tree of files File panel Preview window for a selected file

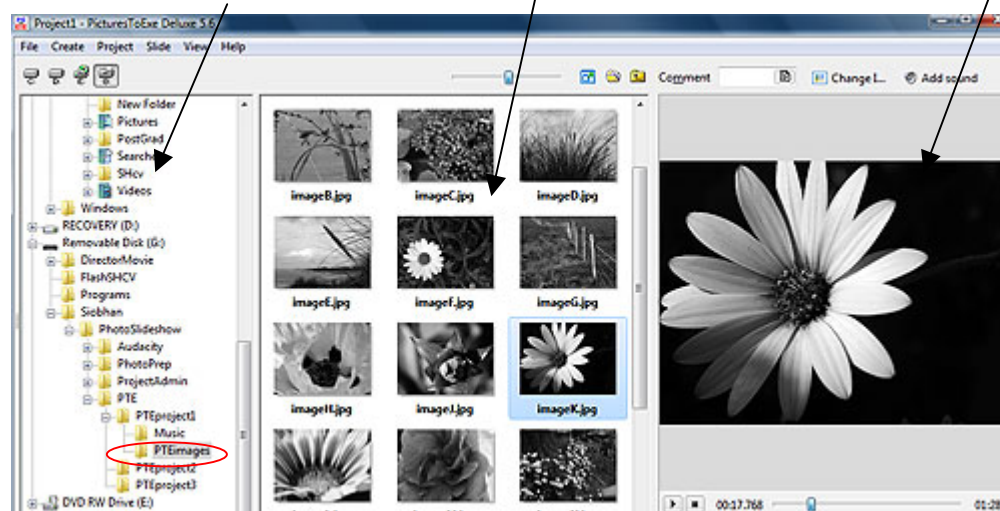

Figure 4.1 “PTEimages” folder highlighted with images displayed in the file panel.

Step Two:

To add individual images to the Slide List the following procedure is used:

- Highlight the image you want in the Slide List.
- Select the **Add** button on the Control Buttons panel. Alternatively, once the image is selected in the File panel you can drag it to the Slide List.

To add all the images within a folder to the Slide List the following procedure is used:

Select **Project > File List > Add All Pictures to Slide List**.

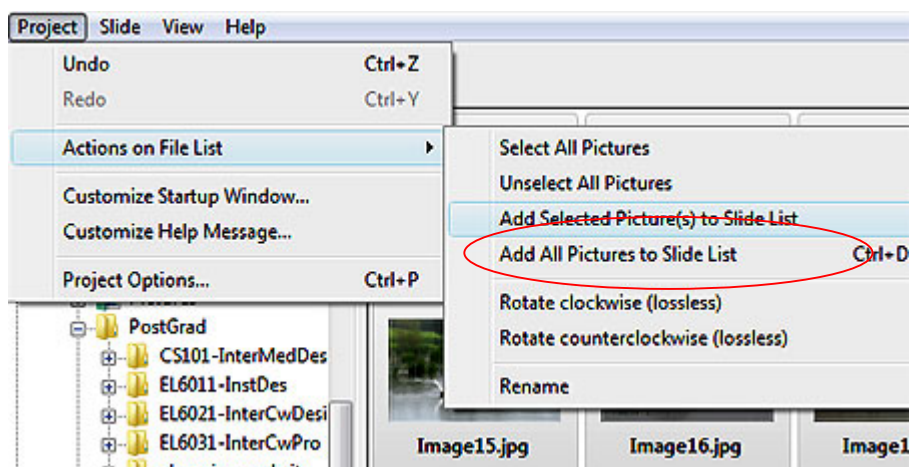

Figure 4.2 Procedure for adding all the images to the Slide List

Note: When you highlight an image is automatically displayed in the preview window.

Step Three:

Repeat this procedure to add all the images to slide list if adding images individually. Your slide list should contain a series of images as shown in figure 4.2

Figure 4.3 Slide List containing all the images to be used in the slideshow presentation.

Step Four:

To move a particular slide to a new position within the Slide List, select the image within the Slide List and right click with the mouse. This produces a quick menu with various options such as **Move to Top**, **Move to End** etc.

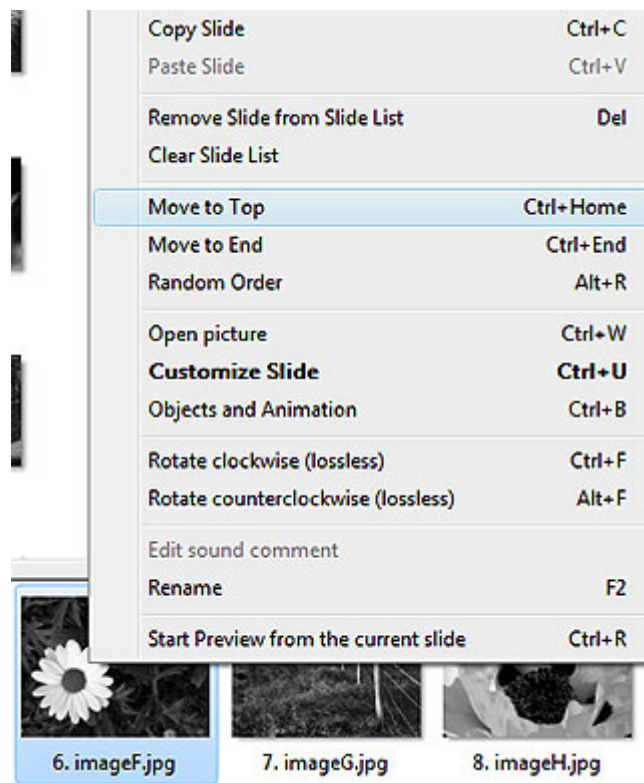

Figure 4.4 Quick menu with various options.

Alternatively you can select the file with the mouse and drag it to a new position on the Slide List. The black line behind the image shows the place where this image will be set.

Note:

The images that appear in the Slide List window form the PTE slide show and the order of the images in the window is the order they will appear in the show.

In the next lesson we will be working with the Main Timeline in Pictures To Exe.
