

## 8. Altering the slide order.

At the end of this lesson you will be able to demonstrate how to alter the slide placement in Pictures To Exe by selecting the 'Full screen view of slide list button' to display the full screen of images within your slide show. This screen gives you more control over the placement and re-arrangement of your images.

Step One:

To re-order your slide list select the **"Full screen view of slide list button"** as circled in red in figure 8.1.

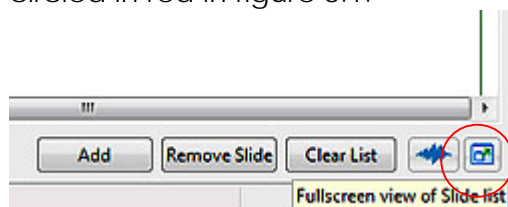

Figure 8.1 "Full screen view of Slide List" button.

Step Two:

The full screen window opens. To rearrange your images simply drag them into the order you want with the mouse.

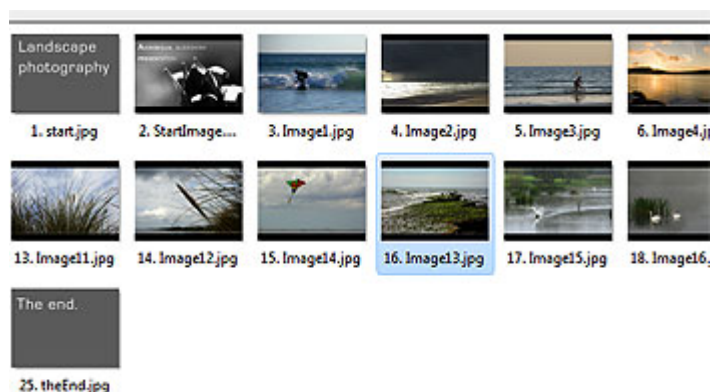

Figure 8.2 Full screen window.

You can adjust the size of your images by moving the scroll bar as indicated in figure 8.3.

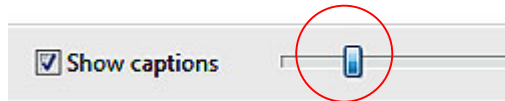

Figure 8.3 Scroll bar in full screen window.

Step Three:

To close this screen, press the **Close** button.

In the next lesson we will learn how to customize the transitions between the slides.
